Geneva, 20th December 2024

To V.N. Karazin National University Educational and Scientific Institute “School of Physics and Technology” / To Whom It May Concern,

As a Project Leader of ALICE Inner Tracking System (ITS), I am glad to acknowledge successful contribution of Fedir Shirokopetlev to the project. As a student of Karazin Kharkiv National University, Fedir took part at “Ukrainian remote student program” at CERN. His contribution was focused on development and upgrade of data quality control analysis software utilized by ITS team for data quality monitoring. Fedir has demonstrated dedication and strong commitment to the project successfully fulfilling his task.

Best regards,

Felix Reidt
Applied Physicist (PhD)
